

中国: H7N9 江蘇省患者 2 名を報告 (5 月 8~14 日)

全球流感资讯网 www.flu.org.cn 2017-05-20 12:46 来源: 江苏省卫生计生委

江蘇省衛生計生委員會は 2017 年 05 月 17 日、先週 (5 月 08 日 0 時~14 日 24 時) の間に、全省で 2 名の H7N9 鳥インフルエンザ発症患者が **出ていた** ことを報告、
患者の分布は南通市と塩城市 ;
死亡者は (宮本注: またまた、どこかの市で死んでいた) 1 名
(宮本注: 隠蔽体質の江蘇省らしい手抜き報告。振り返ってみたら 1 人増えていた? 振り返ってみたら、どこかの患者が 1 名死んでいた??!! 四川省若爾蓋県の発表とはけた違いの手抜き。)

China: Jiangsu Reported One Case of H7N9 Avian Flu (May 8 ~14)

On May 17, 2017, Jiangsu provincial HFPC reported the previous week (May 8~14)'s H7N9 situation.
Two (2) cases of H7N9 avian flu was reported from Nantong city and Yancheng city. Newly **someone at somewhere** died.

i.e.;

The Patient newly diagnosed LAST WEEK is;

Age: **Secret**

Sex: **Secret**

Surname: **Secret**

Place of Living: **Nantong city**

Date of Onset: **Secret**

Date of Hospitalization: **Secret**

Date of Diagnosis: **Secret but in between May 8 ~ 14, 2017**

The Patient newly diagnosed LAST WEEK is;

Date of Hospitalization: **Secret**

Date of Diagnosis: **Secret but in between May 8 ~ 14, 2017**

The patient died last week LAST WEEK is;

Age: **Secret**

Sex: **Secret**

Surname: **Secret**

Date of Diagnosis: **Secret but before Apr. 30, 2017**

Date of Death: **Secret but in between May 8 ~ 14**

Place of Living: **Secret**

(Miyamoto's notes: Full of "secrets"!! This is nonsense! Jiangsu is one of the Secretive Provinces. They do not open detailed information such as Diagnosed date, Hospitalized date, Day of Onset and so on timely. It seems for me that they intentionally put all information required in one bag to conceal the fact behind.)
